Tier	Question it answers	Nature
P0 — Outage	Is the network effectively down for this country?	Absolute
P1 — Severe degradation	Is the network technically up but practically unusable?	Absolute
P2 — Per-country threshold	Has this country crossed the line set from its own normal?	Absolute(per-country)

🎯 Meaning

P0 means the service is down,
P1 means it is available but practically unusable,
P2 means a country-specific performance threshold has been breached.
